Removal of Post-Office.

Improvements to the Federal building which have been in progress for the past eight months have been completed, and on Thursday the Post-Office Department, which has been operating in an old tobacco warehouse during all that period, will be moved back into the new and enlarged quarters. The interior of the building has been well arranged and equipped, with additional room for handling the mails. One of the new things about the department is the installation of "peep holes," through which the work of the employes can be secretly watched and irregularities, if any, can be detected.

A handsome brass lectern is to be installed in St. John's Episcopal Church next Sunday morning, as a memorial from the congregation to the late Dr. Duncan M. Brown, a beloved officer and member of the church, and for many years the superintendent of the Sunday school. The ceremony on the occasion will be simple. The lectern is a very beautiful plece of workmanship of its kind, and cost about \$450.

Jennie Mason, colored, who was shot and desperately wounded by her thusband, Abraham Mason, yesterday afternoon in a quarrel about insurance money, was operated on at the hospital, and her condition is fairly good to-day. The hearing in the case has been fixed for March 3, to await the result of the woman's injuries.

While ceremonies appropriate to washington's anniversary were held in the public schools to-day, the schools were not closed as usual. This was due to the fact that the schools will be closed on Friday, to enable the teachers to attend the meeting of the Fourth District Teachers' Association. Among other very valuable property owned by the city of Petersburg, is the farm of 200 or more acres, partly in the city, on which the almshouse is located. The city has been offered \$30,000 for this farm as an investment for residential purposes, and the offer is being considered by the Public Property Committee, with the probability that it will be rejected.

Retention of Major Anderson Explained
by Congressman Flood.

[Special to The Times-Dispatch.]
Stanton, Va., February 22.—A letter just received by your correspondent from Hon. H. D. Flood, member of Congress from this district and member of the West Virginia Debt Commission, gives some interesting information with reference to the retention of Major William A. Anderson, former Attorney-General, as associate counsel to the commission.

Mr. Flood says that he was as much opposed as any one to employing Major Anderson at the cost of the State; that the certificate holders will be required to pay his fee, and that not one cent of the money of the State of Virginia has been spent to face.

SOCIAL CLUBS INDICTED.

Charlotte, N. C., February 2:—On charges of violating the State prohibition laws, in having sold whiskey and beer illegally, the Southern Manufacturers' Club, Charlotte's swell organization; the Colenial Club, the Elks' Club and the Eagles' Club, which take next rank, and a number of smaller organizations of recent origin, were indicted today by the grand jury of Mccklenburg Superior Court.
